The team delivering the Centrewest difference

Gavin Statham – Director & Senior Account Manager

Gavin works with your business to understand the key elements of your policy and to determine the level of cover that best suits your individual needs. With over 20 years' experience in the insurance industry ranging across many industries but specialising in transport and equipment, Gavin is a great member to have on your insurance team.

Alan Knell – Senior Account Manager

Alan has spent 20 years in various underwriting, and senior management roles within the insurance industry. The last 10 years prior to joining Centrewest Alan was the WA Motor Underwriting Manager at a major underwriter. Alan knows what makes the underwriters tick and what they look for when underwriting and pricing Transport risks.

Steve Post – Consultant & Risk Manager

Steve has been involved in the transport industry for over 40 years, this includes time with a national risk management company and behind the wheel. Steve adds additional value by providing personalised risk reviews, ensuring you are being quoted fairly for your business needs.

Claims Management

Your equipment being back on the road is our priority, this is why we have an in-house claims team. Our experienced claims team is committed to resolving claims quickly and efficiently and you have the security of an insurance broker who knows the product and acts for you.

Risk Consulting & Support Services

Centrewest have partnered with both a worker's compensation claims management specialist and Australia's leading workplace relations specialists. With these additional services it means you have additional representatives to help you deal with insurers or employment relations advice.
